

PRELIMINARY AGENDA TOPICS FOR JANUARY MEETING
OF GENERATION INTEGRATION WORKGROUP

DATE & TIME?

1. Review & comment on draft MI-WETS (Do this by email & webconference as needed, and use minimal meeting time. Meeting time will be used for decision making, not tedious editing.)
2. Review of other regional efforts (Northwest, West, Upper Midwest), with presenters from NREL, Wind on the Wires, National Wind Coordinating Council, Midwestern Governors Association)

THE MAIN QUESTION: If transmission gets built ahead of the generation interconnection process: (1) What will be the procedures for getting the projects approved for construction?; and (2) Who will pay for the projects to be built? How will cost allocation and cost recovery be handled?
3. Discussion with MSU LPI about Mapping Capabilities and Needs
4. Discussion with Wind Resource Board about its needs
5. Discussion with MPSC new Generation & Certificate of Need Section about its needs and needs for IRP process
6. Begin outlining Generation Integration Planning Principles and Policies Recommendations for Commission.
7. Set date & time for Feb, Mar, Apr, May, Jun Meetings?

Notes:

- Likely NWCC Conference Call in January with Update about Upper Midwest WTS
- Michigan Wind Conference at Cobo Hall, March 3-4, 2009
- Michigan Agri-Energy Conference at Kalamazoo, March 30-31, 2009
-
